

IMPORTANT NOTICE TO OUR PATIENTS

You have been scheduled for an overnight sleep study at Respiratory Consultants of Georgia. A technologist has been scheduled to work all night to care for you. Therefore, it is imperative that you give at least 48 hour notice if you are unable to keep your appointment. All calls to change or cancel an appointment must be made during our regular business hours of 8:30 am to 5:00 pm. If you fail to give proper notification, you will be charged \$200 to offset the cost, provided we are unable to find someone to take your spot. Insurance will not pay this fee.

We appreciate your understanding to this very sensitive subject.
